Based on the extremely popular mode to half-life. Counter-Strike, this game is a completely redesigned version of it on a new engine. A combination of realistic and fast arcade-paced shooter - one of the main elements that made the game so popular. Combating terrorists (special forces) fighting against terrorists. Rescue teams/hostages hold and neutralize/set the bomb. It uses real modern weapons. The basic game is like many of these military shooter drugs with the first person, but, unlike them, based on tours. Instead of reviving the death of the players need to wait until the end of the round. At the beginning of each round, players get money to buy And equipment; This nature of the game encourages teamwork and tryto survive. The game engine, the source of the company's valve, provides much better graphics than its half-life predecessor: Counter-Strike, and also offers a more realistic physical model. Form.
